PROFESSIONAL SUMMARY

Computer Science graduate from Taif University with a GPA of 3.95/4.00 and First Class Honors, ranked 1st in both the Computer Science major and the College of Computers and Information Technology. Strong foundation in networking and software development. Experienced in applying technical knowledge through academic projects, cooperative training, and community-based technical support. Seeking an entry-level opportunity in networking or cybersecurity where analytical thinking, problem-solving, and technical execution can create measurable impact.

EDUCATION

Taif University — Taif, Saudi Arabia
Bachelor of Science in Computer Science — *Aug. 2021 – Jul. 2026*

- **GPA:** 3.95 / 4.00 – First Class Honors
- Ranked 1st in Computer Science Major and 1st in the College of Computers and Information Technology

EXPERIENCE

Network Engineer — Aug. 2026 – Oct. 2026
Toot Company — *Taif, Saudi Arabia*

- Troubleshot IP addressing and network connectivity issues
- Performed IT troubleshooting to resolve computer-related problems
- Scanned the network for unauthorized access
- Conducted phishing simulations to assess employee security awareness

Cooperative Training – Communication & IT Wing — Jun. 2025 – Aug. 2025
King Fahad Air Base — *Taif, Saudi Arabia*

- Completed cooperative training focused on enterprise networking, hardware assembly, and system maintenance
- Applied networking knowledge in real-world environments, including VLANs, CIDR, and packet tracing
- Assisted with fiber optic maintenance, cabling, and troubleshooting to support high-speed connectivity

VOLUNTEERING

Member of Events and Public Relations Department — Jan. 2026 – Oct. 2026
Ertwa Organization — *Taif, Saudi Arabia*

- Supported community initiatives as an active member of the Events and Public Relations department
- Co-organized and managed the "Animatrix" event, attracting over 400 attendees
- Built relationships with external partners and coordinated across teams to support project needs
- Assisted with programming tasks and technical solutions across departments

PROJECTS

EduVision – Intelligent Exam Correction System | *Graduation Project*

- Proposed an AI-based system to support faster grading of objective and handwritten exam questions
- Applied computer vision and deep semantic analysis (YOLOv8, SBERT) to extract and evaluate student answers
- Linked assessments with CLOs and PLOs to support ABET and NCAAA accreditation standards
- Designed a dashboard concept to present student results and performance analytics

Employee Attrition Prediction | *Neural Networks Course Project*

- Developed machine learning models to predict employee attrition using prepared and analyzed data
- Compared MLP Back Propagation and Gradient Boosting using accuracy, precision, and recall
- Achieved 94% accuracy with MLP and 97% with Gradient Boosting

CERTIFICATIONS

- eCDFP	*INE*	Expected 2026
- Security+	*CompTIA*	Oct. 2026
- Cisco Certified Network Associate (CCNA)	*Cisco*	Jul. 2026
- Kali Linux For Hackers	*III-Networking LLC*	Jul. 2026
- Cybersecurity Incident Response Analysis	*Misk Foundation & stc*	May 2026

TECHNICAL SKILLS

Programming: C++, Python, SQL, JavaScript, HTML/CSS
Networking & Hardware: Hardware Assembly, VLANs, CIDR, Routing, Switching, DHCP, DNS, NAT, VPN, OSPF, ACLs
Tools: Cisco Packet Tracer, Linux, VMware

LANGUAGES

Arabic: Native
English: Excellent (STEP Score: 90)
