PROFESSIONAL SUMMARY

Computer Science graduate from Taif University with a GPA of 3.95/4.00 and First Class Honors, ranked 1st in both the Computer Science major and the College of Computers and Information Technology. Strong foundation in networking and software development. Experienced in applying technical knowledge through academic projects, cooperative training, and community-based technical support. Seeking an entry-level opportunity in networking or cybersecurity where analytical thinking, problem-solving, and technical execution can create measurable impact.

EDUCATION

Taif University — Taif, Saudi Arabia

Bachelor of Science in Computer Science — *Aug. 2021 – Jul. 2026*

- **GPA:** 3.95 / 4.00 – First Class Honors
- Ranked 1st in Computer Science Major and 1st in the College of Computers and Information Technology

EXPERIENCE

Cooperative Training - Communication & IT Wing — Jun. 2025 - Aug. 2025

King Fahad Air Base — *Taif, Saudi Arabia*

- Completed a cooperative training program focused on enterprise networking, hardware assembly, and system maintenance
- Applied networking knowledge in real-world network environments, including VLANs, CIDR operations, and packet tracing
- Assisted with fiber optic maintenance, cabling, and troubleshooting to ensure high-speed connectivity
- Assisted with Cisco IP Telephony design to support scalable communication architectures

Volunteer - Events and Public Relations Department — Jan. 2026 – Present

Ertwa Organization — *Taif, Saudi Arabia*

- Worked as an active member of the Events and Public Relations department to support community initiatives
- Co-organized and managed the "Animatrix" event, which successfully attracted over 400 attendees
- Built relationships with external partners and coordinated between different teams to support project needs
- Assisted with programming tasks and technical solutions whenever needed across departments

PROJECTS

EduVision - Intelligent Exam Correction System | *Graduation Project*

- *Ranked 5th in the Taif University Capstone Project Competition*
- Proposed an AI-based system to support faster and more organized paper exam grading for objective and handwritten questions
- Applied computer vision and deep semantic analysis (YOLOv8, SBERT) to extract and evaluate students' answers
- Linked student assessments with CLOs and PLOs to support ABET and NCAAA accreditation standards
- Designed a dashboard concept to display student results, providing instructors with comprehensive performance analytics

Employee Attrition Prediction | *Neural Networks Course Project*

- Developed machine learning models to predict employee attrition using prepared and analyzed data
- Compared MLP Back Propagation and Gradient Boosting models based on accuracy, precision, and recall
- Achieved 94% accuracy with MLP and 97% accuracy with Gradient Boosting

CERTIFICATIONS

-Security +	*CompTIA*	Expected 2026
-Cisco Certified Network Associate (CCNA)	*Cisco*	Jul. 2026
-Kali Linux For Hackers	*III-Networking LLC*	Jul. 2026
-Cybersecurity Incident Response Analysis	Misk Foundation & stc	May. 2026

TECHNICAL SKILLS

Programming: C++, Python, SQL, JavaScript, HTML/CSS
AI & Machine Learning: YOLOv8, Vision LLMs
Networking & Hardware: Cisco IP Telephony, Fiber Optics, Hardware Assembly, VLANs, CIDR, Routing, Switching, DHCP, DNS, NAT, VPN, OSPF, ACLs
Tools: Cisco Packet Tracer, Linux, VMware

LANGUAGES

Arabic: Native
English: Excellent (STEP Score: 90)
